§900.114

- (d) Construction project management means direct responsibility for the construction project through day-to-day on-site management and administration of the project. Activities may include cost management, project budgeting, project scheduling, procurement services.
- (e) Design means services performed by licensed design professionals related to preparing drawings, specifications, and other design submissions specified in the contract, as well as services provided by or for licensed design professionals during the bidding/negotiating, construction, and operational phases of the project.
- (f) Planning services means activities undertaken to support agency and/or Congressional funding of a construction project. Planning services may include performing a needs assessment, completing and/or verifying master plans, developing justification documents, conducting pre-design site investigations, developing budget cost estimates, conducting feasibility studies as needed and completion of approved justification documents and a program of requirements (POR) for the project.
- (g) Program of Requirements (POR) is a planning document developed during the planning phase for an individual project. It provides background about the project; site information; programmatic needs; and, for facilities projects, a detailed room-by-room listing of spaces, including net and gross sizes, finish materials to be used, furnishings and equipment, and other information and design criteria on which to base the construction project documents.
- (h) Scope of work means the description of the work to be provided through a contract issued under this subpart and the methods and processes to be used to accomplish that work. A scope of work is typically developed based on criteria provided in a POR during the design phase, and project construction documents (plans and specifications) during the construction phase.

§ 900.114 Why is there a separate subpart in these regulations for construction contracts and grants?

There is a separate subpart because the Act differentiates between construction contracts and the model agreement in section 108 of the Act which is required for contracting other activities. Construction contracts are separately defined in the Act and are subject to a separate proposal and review process.

§ 900.115 How do self-determination construction contracts relate to ordinary Federal procurement contracts?

- (a) A self-determination construction contract is a government-to-government agreement that transfers control of the construction project, including administrative functions, to the contracting Indian tribe or tribal organization to facilitate effective and meaningful participation by the Indian tribe or tribal organization in planning, conducting, and administering the construction project, and so that the construction project is responsive to the true needs of the Indian community. The Secretary's role in the conduct of a contracted construction project is limited to the Secretary's responsibilities set out in §900.131.
- (b) Self-determination construction contracts are not traditional "procurement" contracts.
- (1) With respect to a construction contract (or a subcontract of such a construction contract), the provisions of the Office of Federal Procurement Policy Act (41 U.S.C. 401 et seq.) and the regulations promulgated under that Act, shall apply to a construction contract or subcontract only to the extent that application of the provision is:
- (i) Necessary to ensure that the contract may be carried out in a satisfactory manner;
- (ii) Directly related to the construction activity; and
- (iii) Not inconsistent with the Act.
- (2) A list of the Federal requirements that meet the requirements of this paragraph shall be included in an attachment to the contract under negotiations between the Secretary and the Indian tribe or tribal organization.

- (3) Except as provided in paragraph (b)(2) of this section, no Federal law listed in section 105(3)(C)(ii) of the Act or any other provision of Federal law (including an Executive order) relating to acquisition by the Federal government shall apply to a construction contract that an Indian tribe or tribal organization enters into under this Act, unless expressly provided in the law.
- (c) Provisions of a construction contract under this subpart shall be liberally construed in favor of the contracting Indian tribe or tribal organization.

§ 900.116 Are negotiated fixed-price contracts treated the same as cost-reimbursable contracts?

Yes, except that in negotiated fixedprice construction contracts, appropriate clauses shall be negotiated to allocate properly the contract risks between the government and the contractor.

§ 900.117 Do these "construction contract" regulations apply to planning services?

- (a) These regulations apply to planning services contracts only as provided in this section.
- (1) The Indian tribe or tribal organization shall submit to the Secretary for review and approval the POR documents produced as a part of a model contract under section 108 of the Act or under a construction contract under this subpart.
- (i) Within 60 days after receipt of the POR from the Indian tribe or tribal organization for a project that has achieved priority ranking or that is funded, the Secretary shall:
 - (A) Approve the POR;
- (B) Notify the Indian tribe or tribal organization of and make available any objections to the POR that the Secretary may have; or
- (C) Notify the Indian tribe or tribal organization of the reasons why the Secretary will be unable either to approve the POR or to notify the Indian tribe or tribal organization of any objections within 60 days, and state the time within which the notification will be made, provided that the extended time shall not exceed 60 additional days.

- (ii) Within a maximum of 180 days after receipt of a POR from an Indian tribe or tribal organization for a project that is not funded and is not described in paragraph (a)(1)(i) of this section, the Secretary shall:
 - (A) Approve the POR; or
- (B) Notify the Indian tribe or tribal organization of and make available any objections to the POR; or
- (C) Notify the Indian tribe or tribal organization of the reasons why the Secretary will be unable either to approve the POR or to notify the Indian tribe or tribal organization of any objections within 180 days, and state the time within which the notification will be made, provided that the extended time shall not exceed 60 additional days.
- (2) Any failure of the Secretary to act on a POR within the applicable period required in paragraph (a)(1) of this section will be deemed a rejection of the POR and will authorize the commencement of any appeal as provided in section 110 of the Act, or, if a model agreement under section 108 of the Act is used, the disputes provision of that agreement.
- (3) If an Indian tribe or tribal organization elects to provide planning services as part of a construction contract rather than under a model agreement as set out in section 108 of the Act, the regulations in this subpart shall apply.
- (b) The parties to the contract are encouraged to consult during the development of the POR and following submission of the POR to the Secretary.

§ 900.118 Do these "construction contract" regulations apply to construction management services?

- No. Construction management services may be contracted separately under section 108 of the Act. Construction management services consultants and/or Indian tribe or tribal organization employees assist and advise the Indian tribe or tribal organization to implement construction contracts, but have no contractual relationship with or authority to direct construction contract subcontractors.
- (a) If the Indian tribe or tribal organization chooses to contract solely for construction management services, these services shall be limited to:
